What Is on the Republican State Convention's Hands.

Otherwise It Will Be a Platt_Worth Ratification Meeting.

Senator Lexow Likely to Be Permanent Chairman.

Republicans in New York and Brook by are preparing for their State Con-vention, which is to be held at Saratoga Tuesday. It will not be a real consent any diverse factions of the party. It can more properly be styled a Platt-Worth ratification meeting, because the first of those two worthy bosses represent the State machine at large and the latter the ailled factions in Brooklyn. The Convention will be short and sweet 600 of the 750 delegates, and there is not likely to be any row over the renomination of the old State ticket or the adop-

tion of the platform.

The knockout of Warner Miller in Herkimer removes him from the race for the permanent chairmanship, and it was said to-day that the honor would undoubtedly be conferred on Senator ters last evening. Davies attempted sui-Lexow, of Rockland County, who is making what looks to be an easy fight

delegates and the Brookfield people concede them pretty nearly the former number.

There will be protests without number against many of the Platt delegates and to-night's conventions will be pretty nearly as lively as were the primaries. The Platt drowd will win, of course, but there is some question as to its ability to hold as many of the district leaders when the Brookfield people need them as they do now. The Brookfield argument is that whenever the Mayor wants votes in any of Mr. Platt's districts he knows just how many places it will take to get them. He's not trading jobs for votes just now, say the administration mep, but he may when he wants them.
